After the article above was in type, we reeived the California news by the George Law, announcing that the functions of the Vigilance Committee are understood to have ceased een suspended for the present, but that the Committee has not officially disbanded, the everal companies retaining their arms and rganization in order to be able to act promptly a case of accessity. THE CUTTING AIFAIR AT THE NATIONAL.

The examination of Wood Benson and Geo. Pollard took place in the City Court yesterday, and resulted in their discharge. Mr. Benson was not under the influence of liquor, as he never drinks it. He had been at the National with a friend on some business, and was going away, when he heard a cry, and on turning around saw Pollard cutting Ward. Mr. Benson mmediately returned and parted them, when he was cut by Pollard. Pollard then left, and Benson pursued him and told him that he must remain until an officer came. An officer did come, and arrested both. It will be seen from this that Mr. Benson met rather a hard fale for interfering between Pollard and Ward, (who were atrangers to him), to prevent more sections results. It was not only wounded himself, but was subjected to remain in prison all light.

Clark's house, before which the aff ay began, bears not one mark of violence.

We called this mording at the houses where the more seriously wounded are, and found that they were still alive. James F. Caulk was rapidly sinking, having had a severe hemorrhage for several hours. Daniel Spedden was somewhat easier, but no bope is enertained for him Wm. Jones, the young man reported dead, but who had only swooned from the loss of blood, revived somewbat, but is still in a cruical condition. Frederick Albright, the lan who was shot through the lungs, is still alve, but every hour is expected to he his last. He is suffering extreme agony. Last Kelly is beyond all hope, his wound being of such a character as to render recovery almost impossible.

All the others, so far as we could learn, are getting along comfortably.

Riot on West Lombard Street—Child Shot.—
Between five and six o'clock yesterday afternoon a difficulty occurred helween several rowdles on West Lombard street, when one of
them, Janes P. Weish, fired a pixtol loaded with
slung shot. A son of Mr. William Tell Bixter,
about six years of age, was standing upon the
pavement in front of his house. Several of tite
slugs entered the steps, and one of them struck
the child in the head, but fortunately took offect so near the top of the cranium as to giance
off without doing other isjumy than creating a
slight if sh wound.

Another Riot.—Between 12 and 1 o'clock this
morning another disgraceful riot occurred in
the vicinity of the Lexington malket, which
was kept up for some time with pistois, muskets
and brickbats. The parties to the fight were
the Plug Uglies and a political club attached to
or congregating about the New Market Engine
House, the opposing club heing of the American party and attached to or congreating about
the Mount Vernon Hook and Ladder Company,
between whom a bitter feud has existed for
